Nevada City Nugget

COVERS RICHEST GOLD AREA IN CALIFORNIA

This newspaper tries to be helpful in all community enterprises that tend to make this a better place to live. It seeks to stimulate a healthful growth in business. Those who subscribe to, or advertise in the Nevada City Nugget join with it in this endeavor.

Vol. 11, No. 81, The County Seat Paper NEVADA CITY, CALIFORNIA The Gold Center FRIDAY, OCTOBER 15, 1937.

Thinking Out Loud

H. M. L.

This is the third year and about the fifth time the President has either promised outright or indicated that in the following year the national budget would be balanced. Of course it must be done sometime. The present fiscal and political drift every day brings nearer a treasury crisis that may only be avoided by increasing taxes and curtailing expenditures. Most people who talk of an approaching treasury crisis, we notice, are hard shelled Republicans. And they forget that while the leaks in the treaury, made by groups determined to get theirs while the getting is good, are draining its credit contents, there is an ace in the hole. This consists of the unemployment and old age security taxes, which are piling up a tremendous reserve for what Opper used to designate as the plunderbund.

There are no strings or restraints on this fund which, with the tax rate increased next year and for several years, will roll up like a snowball tumbling down Mt. Whitney in the dead of winter. The Treasurer may and if necessity arises, unquestionalbly will, drop U. S. bonds into this fund and use the cash. And at the rate we are going the necessity will inevitably arise.

Ask a hundred people on the street what a budget is and not more than sixty will be able to define it. That it is simply a plan formally adopted by any fiscal authority under which it balances its expenditures against a conservative estimate of its income for the year to come, is a kind of an abstraction to most people. That is why the President can afford to make these promises from time to time. He knows, shrewd politician that he is, that half of the people don't know what a budget is, and that by and large, 75 per cent knowing or unknowing don't give a dern. The only thing that will spur him really to balance the budget is the imminence of another crash.

It would be humiliating after all the obliquy that has been heaped on Herbert Hoover, if after an eight-year try the New Deal had pulled us out of one bog only to land us in another. The leaders of the Mormon church are advising their members to put up ware-houses, can fruits, process meats, dry vegetables, and along with grain, store them, for they foresee another national twister coming over the horizon. This may be a gesture, but it is costing the Mormons real money.

We doubt if the Mormon elders and bishops are able to see further into the future than other groups. The reasons we think the Mormons are mistaken is that there now resides in the President more authority than was ever before reposed in a President in peace time. He should know and be able to interpret the signs of storm. He has the power to act quickly and decisively to ward off another such calamity as that of 1929. Furthermore, it is to his interest and the advantage of his party to prevent another collapse of the economic structure. No administration wants to pull its house down around its ears. And despite the stock market slump, labor quarrels, railroad worries, one first class war in Asia and another in Europe, with possibilities of wider battle fields involving your Uncle Sam, we do not believe the crash is coming while President Roosevelt rules. The dreadful fruit of some of his "reforms" will take years to ripen. We only hope he lives to eat some of it himself.

Some of this fruit is already mellowing. For instance: The jeers that greet another promise of balancing the budget. The cynicism that columnists express over Senator Black's shift from a white to a black robe. The organization on a national scale of a WPA union, that assumes a vested right to be supported by public taxation. The payment of a $500,000 campaign debt to John L. Lewis who demands and receives special governmental favors for his communistic organization. The waste of hundreds of millions of dollars on such projects as the Nebraska irrigation schemes and such Federal enterprises as Tugwell town. Ad infinitum.

Miner Killed When Hanging Wall Breaks

Edward Hall, miner of Grass Valley, was killed at noon yesterday in the Brunswick mine, when a hanging wall gave way spraying him with a shower of rocks. The accident occurred on the 1300 foot level. His partner, Robert Walker was injured and was taken to Jones Memorial hospital in Grass Valley. It is not expected his injuries will prove serious. The Brunswick mine is a part of the Idaho-Maryland properties northeast of Grass Valley.

NEVADA CITY BOYS ON NEVADA U. GRID TEAM

Sheriff Carl J. Tobiassen and Mrs. Tobiassen and Mr. and Mrs. J. M. Hoff will motor to Reno, Saturday to see their sons play on the University of Nevada football team. Carl Jr., whose knee was severely injured in a game recently still has a stiff leg but it is expected he will be alright shortly. It is the same knee he hurt in the Nevada City-Auburn foot ball game at Auburn last year, while playing with the local high school team.

RAINFALL TOTAL IS 2.32 INCHES

The rain fall for the month of October as estimated by the rain gauge at the home of Mrs. Jennie Preston on upper Boulder street, yesterday evening is 2.32 inches. The last storm brought .92 of an inch. So far the rain has done no harm.

AGED GOLD FLAT MAN SUCCUMBS TO BURNS

Jack Baldwin, who was between 65 and 70 years of age and who suffered fatal burns about his head, arms and body supposedly by an exploded lantern, passed away at the county hospital at 9 o'clock yesterday morning. Jack Baldwin was born and reared in Gold Flat and followed wood cutting practically all his life. He leaves three brothers, Ed and Daniel Baldwin of Grass Valley and Charles Baldwin of the bay district. Funeral arrangements have not been completed. The remains are at the Holmes Funeral Home in Nevada City.

GAME WARDEN SEEKS GRAY SQUIRREL SLAYERS

CAMPTONVILLE, Oct. 14.—Game Warden Alvin Granndstrom of Downieville was here Saturday looking for gray squirrel killers. Having information that such violations were going on here, he obtained a search warrant in the local justice court and searched a premises but was unable to find any evidence.

Gray squirrels are, or were quite plentiful in this section, and were coming into town in large numbers to gather nuts, and it is alleged that they were being feasted upon.

FUNERAL SATURDAY FOR MRS. BECKWITH

Funeral services for the late Mrs. L. A. Beckwith, 80 years of age of Downieville who passed away on Coyote street this city Wednesday evening will be held in the Downieville Catholic church at 10 o'clock Saturday morning.

Father P. O'Reilly of Nevada City will officiate. Interment will be in the Downieville cemetery with Holmes Funeral Home in charge of arranngements.

Mrs. Ella Himes, postmaster of Hammonton, and party of friends were Nevada City visitors Tuesday. Mrs. Himes is a sister in law of Mrs. M. Himes and aunt of Miss Madeline Himes, stenographer for District Attorney V. Stoll.

ORE DISCOVERY ON DAIRY RANCH

James R. Maben, dairyman living south of Grass Valley on the Auburn highway, brought a samplet of ore from a rich vein on his property to the Nugget office yesterday. The ore is on display in the Nugget window. He stated in an 80 foot shaft a two foot vein runs $37.50 to $400, and a four foot vein runs $7.50 in assays. The vein is on the west of the 300 acre property and dips east a good indication for rich yields in gold. There are four veins running parallel through the property. The shaft is one half mile from the road and there is plenty of water.

CRIPPLED CHILD PASSES AWAY

Earl Winney, 12 years old, who had been crippled several years and in a wheel chair for two years, passed away at the home of his parents, Mr. and Mrs. C. E. Winney at 9 o'clock Wednesday evening from double pneumonia. He had been ill about a week.

Funeral services will be held Saturday afternoon at 2 o'clock in Holmes Funeral Home chapel with Rev. H. H. Buckner officiating. Interment will be in Pine Grove cemetery.

CIVIC CLUB AIDS PURCHASE OF INHALATOR

At the regular meeting of the Civic Club Monday night the business meeting was followed by a short program consisting of a short talk on the Neutrality Act by Mrs. B. C. Goldsmith and a short talk on the China-Japanese situation by Mrs. B. Robinson.

In the business meeting a letter was read from the Nevada City Firemen requesting a donation toward an inhalator for the city to be in charge of the firemen. After discussion the ladies voted to donate $20 towards the purchase. The ladies whole-heartedly agreed that it was proper that Nevada City should have an inhalator as it might at some time be the means of saving a life here.

MRS. DAVIS TELLS OF LIFE IN NORWAY AND TAHITI

St. Agnes Guild held a very pleasant meeting yesterday afternoon at the E. M. Rector home.

A short business meeting was held presided over by the president, Mrs. E. M. Rector. Following the business meeting Mrs. H. P. Davis sketched her experiences in some of the countries she has lived in including her native country Norway, and Tahaiti, where she resided for about ten years.

It was a long jump from Northern Norway to sub-tropical Tahaiti. Mrs. Davis, with her zest for living seemed to get the best out of life in both countries. The vigorous skiing of the north and the gay social life of the tropical country each intrigued her so that, she was able to present a vivid picture of each with humorous side lights of habits, customs and manners.

CHAMBER OF COMMERCE TO MEET MONDAY NIGHT

There will be a big meeting of the Nevada City Chamber of Commerce Monday evening. This will be the first meeting of the chamber in its new quarters in the City Hall. President Fred Conner states that there are several important matters to be discussed and the fall program will come up for debate.

NEVADA CITY SHARE IN AUTO FEE FUND, $1626

SACRAMENTO, Oct. 14.—Allocations of $1,447,259.75 to cities and counties as their share of liquor fees for licenses issued during the first six month period of 1937, was announced today by R. E. Collins, chairman of the state board of equalization.

The allocation represents 50 per cent of the total fees earned during the first half of the year, totaling $2,894,519.51, the state's share of which goes into the general fund.

On the basis of actual licenses issued, Nevada county will receive a total of $7,430, of which $3,530 will go to the unincorporated areas, $1,626 to Nevada City and $2,273 to Grass Valley.

The change in the law to provide for allocations twice a year instead of annually was made at the request of members of the board of equalization so that these funds would not remain idle for such a long period. Payments of the various allocations will be made in the near future, officials said.

In pointing out that these funds are collected entirely by the state and represent income derived exclusively from liquor licenses, Collins called attention to a recent opinion of Attorney General U. S. Webb in which it was held that a proper expenditure of this money would be the fulfilling of the obligation imposed upon cities and counties by section 66:5 of the Alcoholic Beverage Control Act, which provides as follows:

"It is hereby made the duty of every peace officer and every district attorney in this state to enforce the provisions of this act, and to inform against and diligently prosecute persons whom they have reasonable cause to believe offenders against the provisions hereof. Every such officer refusing or neglecting to do so is guilty of a misdemeanor."

FLOWER SALE NETS $16; GOES TO BUILDING FUND

The flower sale held last Saturday morning by the Camp Fire Girls and Boy Scouts netted a total of $16 which will be devoted to the building fund. The flowers came from the garden of Mr. and Mrs. U. S. N. Johnson on Piety Hill and not only were generously donated by Mr. and Mrs. Johnson but were conveyed in Bret Harte dairy trucks in pails filled with ice water to the flower market in front of Alpha Stores.

Satisfactory progress is being made on the addition to Seaman's Lodge in Pioneers Park. Partitions are up and the roofing is now being placed on the building. The new addition will contain three rooms, one for the use of the Scouts, another for the Camp Fire Girls and a third to be used as a kitchen. There will also be a room for the storage of fuel. The Nevada County Lumber Company is supplying materials for this addition at cost as its contribution toward the building fund.

PLUMBAGO MINE

Another report has reached Nevada City of a rich strike in the Plumbago mine shaft. The property lies east of Alleghany. J. J. O'Brien, owner, passed through Nevada City Tuesday enroute to his home near Detroit. Ralph Yount, superintendent, was in this city this week also. Andrew Carey of this city is mill man at the Plumbago which has a rich past production record, the records showing production up to 1924 of $8,000,000.

"Tug" Wilson, employed at the Omega mine east of Washington, was a business visitor in Nevada City Thursday.

Mrs. Fred Develey, Sr., of Alleghany is spending several days this week in Nevada City visiting Mrs. Carl Johnson of Park avenue.

Mine Employment Shows Sharp Uptrend

ENGINEER TELLS ROTARY CLUB OF MINING FAKES

Waldemar F. Dietrich, mining and metalurgical engineer on the Sacramento Junior College faculty was the speaker yesterday at the Rotary luncheon. He complimented Nevada county by stating that this district has been unusually free of the frauds which are perpetrated in opening up many new mining camps.

Prior to Mr. Dietrich's address the Rotary club responded to an appeal of the Shanghai club for funds to relieve the vast suffering of the great influx of people who had sought a hazardous refuge in that city as well as the residents who have been innocent victims of the war deluge. The club voted to send the Shanghai club the sum of $25.

"Fakes and frauds involve the deliberate attempt to deceive investors," said Mr. Dietrich. "Falacies are in another category, including all impractical schemes founded on illogical reasoning, ignorance, incomplete data, or poor judgment.

"Salting mines as a means of baiting investors has now practically passed out of the picture, for the reason that all competent engineers can detect it without any difficulty. The more common fraud in mining today is the issuing of false assay reports."

Mr. Dietrich told of his own experience in sampling a Nevada mine, in which he divided the pulp of his samples with those of a local assayer, and then had the assay checked by a San Francisco assayer. The local assay ran about two and a half times that of the San Francisco assay, due it was supposed to the fact that the Nevada assayer was receiving his remuneration in stock in the company and therefore wanted to see the deal completed.

The false assay report, the speaker declared was also a favorite means of parting investors with their hard earned money in Southern California during the depths of the depression. Other swindles are based on lost mines and worked out mines. The well worn device of a desert rat who comes staggering into a mining camp with samples of highgrade and a story of having discovered a mountain of "24 carat gold" is often the spring board for a whole series of frauds.

"However," Mr. Dietrich said, "much of the mining revival of the last four years has been the resumption of mining in properties that were closed down when gold was valued at $20.67, but worked out mines seem to have an immortal life. T. J. Hoover calls them "mines that never die." Some of these attemps at revival are flagrant frauds, others are an honest gamble and a few are actually in the class of legitimate ventures. The ideal property for the purpose of a crook is one that has been closed down for about 20 years, filled with water or with a tunnel caved in. Sometimes that only requires the expenditure of $15,000 or $20,000 to open up and look at.

"The true 'antiguas' or mines developed in South America under the old Spanish regime belong in this class, but many of them have been re-opened in recent years and a great many of them are on a paying basis.

"In the way of falacies, one of the greatest I believe is that sea water can be made to yield profitable quantities of gold. It is true that sea water does contain from 1-4 cent to 1 cent in gold per ton. But the difficulty is that no one has yet devised a process by which the gold can be recovered at a profit."

Miss Margaret Wyant, sophomore at University of California, will spend the coming week end with her parents, Mr. and Mrs. Charles Wyant in Nevada City. Miss Wyant is majoring in archeology.

During the past month employment in mines has increased in the county approximately by 50 more men. The total now employed according to the Nugget's monthly survey is now 2,577 men, who receive an average of $150 per month in wages. This compares with 2,518 a month ago. The total monthly payroll for the county now stands at $386,550.

This is close to the payroll peak in Nevada county in recent years. Last November the payroll amounted to $387,980 but the number of men employed was 2,772 or almost 200 more than now employed.

The increase in men employed during the past few days is attributed to the abundant rain which permits preparations to be begun on several placer properties that operate when water is available.

RELIEF HILL GRAVEL MINE

C. E. Clark, superintendent of the Relief Hill gravel property near North Bloomfield, was a Nevada City visitor yesterday. Four men are employed repairing ditches and flumes and carrying out a general program of rehabilitation. With the erection of the Narrows dam this will be one of the first properties to take advantage of the tailings dam, with hydraulic operations.

LAVA CAP MINE

The new hoist at the Lava Cap mine is still in the process of being installed and will be completed in about a month. A program is in hand for enlarging the mill by the addition of 50 tons and constructing a new tailings dam. The additional 50 tons will give the mine a 350 ton daily capacity mill. Otto E. Schiffner is superintendent of the mine.

GREAT NORTHERN MINE

Leasors are mining ore on the 200 foot level in the Hoge or Great Northern mine on Harmony Ridge north east of Nevada City. Retimbering is also being done and a cross cut is being driven to contact a new vein.

OMEGA GRAVEL MINE

Under the supervision of Theodore Larsen crews are building new flume and repairing portions of the old one for active hydraulic operations as soon as sufficient rain has fallen. The flume will be several miles long when completed. It is expected the

A Duke Studies Labor

So! The Duke and Duchess of Windsor are coming to America in November to study conditions among the working classes!

Having apparently wearied of the partying and dancing along the humdrum cocktail circuit, the Duke and his American bride will now devote themselves to observing more substantial realities—the food that goes into workers' dinner pails, the size of paychecks, the kinds of houses workers live in and the rent they pay. This is, indeed, a different sort of Cook's tour than England's ex-king has been wont to travel in the United States.

If the Duke should drop in for a chat with Labor czars John L. Lewis or William Green, he will find that Labor's breadbasket is by no means poorly stocked with provender.

Come Thanksgiving time, he will find that Labor has netted during the past eleven months, upward of 69 per cent of the national income.

He will find that the lower income groups have by no means been the only benefactors of Labor's harvest. In steel, the Duke will discover workers are more prosperous than last year by nearly $2 million in fattened paychecks.

The Duke may also be interested in knowing that Great Britain's Railway Staff National Tribunal recently granted England's rail employees pre-depression wage levels. Let him compare this with the grants of America's 86 leading railways who on August 25 and October 3, made wage boosts of $98 million and $35 million to some half million employees. These exceeded 1929 wage levels in some instances by as much as 20 per cent.

In marked contrast to Labor's progress, the Duke of Windsor's income has grown less with the passage of time and whereas a year ago he was working, today he is among the unemployed.

With leading industries blotting out unemployment and lifting paychecks to new highs, no wonder the Duke would like a ground-floor view.—Contributed.

Tramp: "Lady, have you got an organ I can tune for you?"

"How ridiculous; We have no organ in this house."

"Then if I can't earn anything how about giving me a bite to eat?"

MANY MINES GET EQUIPMENT FROM MINERS FOUNDRY

The Miners Foundry, pioneer firm in Nevada City, continues to handle large orders for ore cars and mine machinery from different parts of California.

Ten of the Edinger specially constructed side dump ore cars were shipped Tuesday to the Monarch Mining corporation or Vanadium Steel Corporation at Bishop. This corporation purchased 20 of these cars several weeks aga sending a huge truck here for the lot.

A 100-ton cyanide plant has been purchased by the Forest Hill Divide mine, property east of Auburn in charge of A. D. Hadsell. The King Gillett property (safety razor interests) adjoins the Forest Hill Divide ground.

The Red Cross mine near Dobbins bought a 50 ton cyanide plant, within the last few weeks.

The foundry has been revamping cleaning the set up and installing a jigg and amalgamation equipment at the Black Oak mine in Garden Valley. Russell Wilson is owner of this little high grade property.

Installation of the 85 foot all-steel head frame at the Scotia shaft on the Golden Center property was completed within the last few days.

THIRD LARGEST NUGGET WAS FOUND BY FINNEY

It is interesting to learn that the largest gold nugget ever found in the United States and the third largest in the world was discovered by G. G. Finney in 1853 near Downieville. It weighed 5,000 ounces, valued at $84,302 and contained only three per cent of foreign matter (quartz). It had the form of a pair of dumbells and in getting it out with his pick Finney broke the link connecting the two bells.

It was taken to San Francisco and a steel strap was riveted to the link. A hole was bored through it and secured it to the counter in the office of a prominent mercantile firm there. Thousands visited it before it was shipped east. It was a curiosity even in those days of an abundance of gold dust and nuggets. It is stated it was the year (1853) of California's highest gold tide, for $83,000,000 was produced that year, mostly from placers.

Mr. Finney came from Virginia and was known throughout the mining districts as "Old Virginny". It is also interesting to know that he who discovered the largest nugget named Virginia City, Nevada.

TO INAUGURATE NIGHT CLASSES AT HIGH SCHOOL

The high school faculty, board of education and Principal H. E. Kjorlie, are maturing plans for a night school to open about November 1. Interest has been manifested in a course in community chorus, free hand drawing, applied art, typing and indoor sports. It is stated, however, that no course will be started with less than twenty members in the class. Those who are interested in a night school are requested to call the high school, phone 120, and further information will be given. A more extended description of the plan will be given in Monday's issue. The night school has no relation to the series of lectures which will be given next spring.

MRS. VIVIAN BILLICK A. A. U. W. PRESIDENT

Mrs. Vivian Billick was elected president of the Nevada County Unit of the American Association of University Women at its meeting held Wednesday night at the home of Mrs. B. C. Goldsmith. Mrs. Billick takes the office previously held by Miss Ollie Hoffman who is now living in New York.

The next general meeting of the group will be held on Wednesday evening, November 10, under the direction of the publicity chairmen.

Preceding Wednesday's business meeting of the club, a program, arranged by the International Studies Group, under the chairmanship of Mrs. B. C. Goldsmith, was presented. Sam Partridge of Grass Valley presented moving pictures, which he himself had taken of the Boy Scout jamboree held in Holland which were greatly enjoyed and appreciated by the ladies.

GRAND PRESIDENT TO VISIT LAUREL PARLOR

Grand President, Ethel I. Begley of the Native Daughters of the Golden West will visit Laurel Parlor, No. 6, N. D. G. W. on Wednesday, Oct. 20. A dinner will be served in her honor preceding the meeting. Those wishing to attend please notify Mrs. Ida Sweeney on or before Monday, October 18.

DRIVER FOUND GUILTY BY JURY OF HOMICIDE

Raymond Smith, Negro chauffeur for William Williams, mining man, whose driving resulted in an accident above Rainbow tavern on Fourth of July morning, in which three in a family of four were killed, was on Wednesday found guilty by a jury in the Superior Court of negligent homicide. The verdict carries with a penalty of one to three years in the penitentiary.

Attorney Dunning for Smith, made a motion that probation be granted and this was taken under advisement by Judge Raglan Tuttle. The jury brought in its verdict in less than two hours following submission of the case. C. J. McKissick, a carpenter of Hayward was an eye witness of the head on collision in which Smith, driving his employer in a big Pierce Arrow car, telescoped the Chevrolet coupe in which Mr. annd Mrs. Asa Eddings of Sacramento with their two little daughters were enroute to Lake Tahoe for a day's outing. The father and mother and one of the little girls were killed.

The jury was selected before noon and taking of evidence began.

Evidence was all in by 3 o'clock in the afternoon, and District Attorney Stoll and Attorney Dunning had concluded their arguments by 4:30 and the jury then retired for deliberation, returning with the verdict in two hours.

MINING ENGINEER AND BRIDE HOME FROM TOUR

Mr. and Mrs. George Hallock have returned to Alleghany from their honeymoon. They were married in Salt Lake City September 7. Since the happy event they have toured the New England states and have also motored through the Old South as far as New Orleans.

Mrs. Hallock was formerly Miss Gertrude Hawkins of Grass Valley. Mr. Hallock is president and manager of the Sixteen-to-One Extension mine. He states that work on the property will be resumed at an early date. He is president of the California Hydraulic Mining Association.

Refreshing Warmth

Thru the Knot Hole

A Glimpse of Building Activity

Vol. 1. OCTOBER 15, 1937 No. 59.

In order to make your home warm and comfortable for the winter months we suggest the following.

SHINGLES, SHAKES, COMPOSITION SHINGLES and ROLL ROOFING. If the last few days of rain developed leaks in your roof now is the time to repair it or put on a complete new roof before the heavy snow of winter comes. We have complete stocks of roofing materials at prices that will be economical to all.

WATERPROOFING COMPOUNDS: If your cement basement leaks LUMINO liquid waterproofer applied with a brush like paint will absolutely make it dry. LUMINO comes in convenient quart and gallon cans.

WALLBOARDS: We have complete stocks of CELOTEX, PLASTERBOARDS, VENEER PANELS, PESTILE, KNOTTY PINE, ETC. Any of these wallboards will make your home more attractive and comfortable.

PAINTS: MURPHY'S PAINTS ARE ALWAYS FRESH, and priced to please. You can retouch that room you have been wanting to brighten up with very little cost. With the Holiday Season approaching start now to make your home fresh and bright.

CALL US ON ANY OF YOUR BUILDING PROBLEMS. WE ARE HAPPY TO HELP YOU.

Mose became heir to a few hundred dollars and immediately went down town to pay a grocery account of long standing. After which, he strolled down the street into the Jones store and purchased a large supply of groceries, for which he paid cash.

The groceryman with whom he had the large account saw him, and a few days later stopped him and inquired:

"Mose, why did you buy a large bill of groceries from Mr. Jones after I have carried your account so long?"

Mose looked surprised and replied, "Mah goodness, Mr. Smith. I didn't know you sold groceries fo' cash."

MINING

(Continued from Page One)

new debris dam will hold about 1,000,000 yards of gravel. This dam will be used until the debris dam is built at the Narrows on the Yuba river.

YOU BET GRAVEL

Sampling of the old You Bet gravel property, on Greenhorn Creek near the ghost town of You Bet, has been about completed. A keystone drill and crew of four men have conducted extensive tests of the gravel since early in June. In places it is 90 feet to bedrock. This property operated as a hydraulic mine in early days has a record of many thousands of dollars. F. F. Cassidy of the Alpha Stores in Nevada City is interested in the property.

REMINGTON HILL

A. Anderson, in charge of the Remington Hill gravel property above Steep Hollow and east of this city, was a Nevada City visitor this week. A drift is being driven to contact the old Liberty channel. An effort will be made to get more water for mine operations.

HOT WATER PROPERTY

W. Baker, owner, is in charge of the Hot Water mine near Graniteville where a five foot vein of ore carrying splendid values is being mined and opened up. Milling started about the first of the month in a small mill on the property. The men are pleased with recovery values.

GRACEY MINE

Thomas Coan, superintendent of the Gracey mine, continues to keep things in condition and the shaft is unwatered at the property, awaiting plans of continued development. Three men are employed.

REMINGTON HILL PLACERS

Frank Crampton, who moved to Nevada City from Southern California early this month, states he is waiting until spring to reopen his property the old Remington Hill placers. Considerable damage was done to flumes and ditches by heavy snow and ice during last winter. Much of this has been repaired.

BULLION MINE

About 60 tons of ore per day are being mined in the lower levels of the Bullion mine south of Grass Valley. Ore is being trucked to the old Idaho stamp mill for reduction into concentrates. The Bullion mine is being operated under supervision of the Idaho-Maryland mines company.

GOLDEN STAR PROPERTY

A test run of ore from the Golden Star property three miles below Grass Valley, has just been completed in the Queen Lil custom mill at Nevada City. A new headframe is being built over the incline shaft. J. S. Hennessy of Grass Valley, owner, leased the ground to Sacramento interests.

LUCKY JANE

The old Union Blue tunnel on the Lucky Jane property is being cleaned out and retimbered. It has been idle for many years but work has progressed between 3,500 and 3,600 feet. When drifting is completed the tunnel will contact the old Relief and Durbec channels both rich in gold production wherever worked in early days. Two men are employed under C. E. Clark, of North Bloomfield.

BOREHAM PROPERTY

Drifting is being done on the 175 foot or bottom level in the Boreham mine at Town Talk. The four stamp mill on the property treats the ore as it is mined. This property produced some beautiful jewelry rock ore about eight years ago under operation of Los Angeles interests. A. E. and Colvey Boreham, brothers, own and operate the property.

Mrs. Charles Leiter, deputy grand matron of the eighth district of California, O. E. S., will leave Saturday for Los Angeles to attend grand chapter which is being held in the Ambassador hotel this year.

NATIONAL HOTEL GUESTS

DR. DURFEE TO ATTEND OPTOMETRIST MEETING

Dr. Walter F. Durfee, Optometrist Auburn and Gras Valley, California, will devote a week in December to attending the Pacific Northwest Congress of Optometry at Portland Oregon.

This meeting, according to advices received by Dr. Durfee will be most outstanding of all similar meetings held in the United States in many years because of the subject matter to be covered and the leaders in the field of optometry who will conduct the five day seminar.

The congress is not just a convention of several hundred optometrists of the Pacific coast, but a school of instruction where specialists bring the latest findings in their fields of work in all parts of the country into the spotlight for the benefit of the northwest eyesight specialists and educators who meet with them.

Principal lectures will be delivered by Dr. A. M. Skerrington of St. Louis. Theme of the seminar is a subject of primary interest among school authorities—the study of the "reading problem" as it concerns the effects of eyesight on advancing or retarding progress of children in school. Educators and optometrists have agreed, Dr. Durfee states, that many a youngster has had difficulty in learning to read or in remembering his history lesson because of the difficulty of comprehending the printed word due to eye difficulties. At Portland, Dr. Durfee will see demonstrated new equipment for training, examining and diagonsing eye trouble.

Employer: "Yes, I advertised for a good strong boy. Think you can fill the bill?"

Applicant: "Well, I just finished whipping nineteen other applicants outside the door."

AMERICANBOY INTRODUCES A NEW FOOTBALL GAME

In the early fall issues of THE AMERICAN BOY there'll be presented the story of a new game—six-man football—fast as professional football, wide open as basketball, thrilling as hockey!

The game came to life through the need of small schools for some substitute for 11-man football, which was too expensive. Stephen Epler, a Nebraska graduate student in athletics, developed the game of six-man football to meet this need. In six-man football anybody can score, the possibility of injury from mass plays is minimized, and the game is open enough for spectators to follow every exciting development.

The new game is a hit. New schools are taking it up every day. In coming issues THE AMERICAN BOY tells the world about this practical new game. In addition, it presents The American Boy Official Handbook, which can be obtained from the magazine at 20 cents a copy, or 15 cents when bought in bulk.

NOTE: Subscription prices of THE AMERICAN BOY will be raised in the near future. Send your subscription order at once to take advantage of the bargain rates now in effect; one year at $1.00 or three years at $2.00. Foreign subscriptions 50c a year extra. Send your name, address and remittance to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Mich. On newsstands the price is 15c a copy. **Adv.**

"A good worker derives a great deal of pleasure when he steps back to view the effects of his work," asserts a builder. Unless, of course, he's a steeplejack.

CAN GOVERNOR MERRIAM BEAT 2ND TERM JINX

By CLEM WHITAKER

This is the season when political psychoanalysts start to ponder the curious fixations, frustrations, inhibitions and predilections of that democratic king-maker and playful upsetter—the average voter!

The idea is to study cause and effect, past performance and present preoccupation, and then reach a verdict on what makes him tick.

Every voter, of course, is an independent thinker, but the doctors of politics argue that there are "common tendencies" in the body politic which have a profound bearing on both men and issues.

For example:

California voters almost invariably favor Proposition 7 on their ballots. Number 11, too, comes up with pretty fair reguarity. (Last year, however, was the exception that proved the rule; Propositions 7 and 11 took a licking, but so did 17 others; it was a "No" ballot.)

With clock like consistency, almost all voters frown on Proposition 13.

Constitutional state officers—the Lieutenant Governor, Attorney General, Secretary of State, Treasurer, Controller, et cetera — are usually re-elected by handsome majorities. Defeats are a rarity!

But the Governor of California—regardless of party—seldom comes back for "seconds." In 88 years of recorded political history, California has re-elected but two governors, though many have made the attempt annd courted the voters most diligently.

With Governor Frank F. Merriam apparently intent on seeking re-election, the political experts are wondering whether the most persistent jinx in California politics can be broken — the gubernatorial hoodoo that only two have successfully defied.

Back in 1853, when California was young and lusty, Governor Bigler was re-elected, but the term in those days was two years instead of four. He tried for a third term and was beaten.

It was more than 60 years after Governor Bigler's re-election triumph before it happened again. In 1914, the redoubtable Hiram W. Johnson was re-elected. But Hiram changed parties to accomplish the feat. In 1910, he was elected as a Republican; in 1914 he ran as a Progressive.

After Johnson came Governor Stephens, who tried for re-election and was nosed out by Governor Richardson. Richardson sought a second term and lost out to Governor Young. Young tried, too, but was defeated by Governor Rolph. And death wrote finis to Governor Rolph's career during the midst of his campaign for a second term.

Can Governor Merriam defy the jinx? Only the voters can tell and they won't answer—until 1938!

Mother: "Marilyn, were you a good little girl at church today?"

Marilyn: "Yes, mother. A man offered me a big plate of money, and I said, 'No thank you'."

WARD WEEK SALE IN FULL SWING

A world of merchandise, filling all kinds of common human needs, is offered this week by Montgomery Ward in Auburn. It is a national sale week observed each fall by 560 Ward stores throughout the United States. It began Wednesday and will end Saturday, October 23. A five column advertisement of only a few of the offerings at surprisingly great savings appears in this issue on Page three.

Manager L. F. Smith of Montgomery Ward in Auburn states that all orders of over $10 will be delivered once a week in Grass Valley or Nevada City free. Payments for merchandise valued at $10 or more can be arranged with a small down payment and monthly installments.

Among these bargains are batteries, tires, furniture, clothing, shoes, bedding, fire arms, bath room fixtures, kitchen and table ware and electric appliances. The large array of household articles practically all auto accessories, garden equipment and labor saving appliances, give Ward customers a wide selection at unusually attractive prices during this great sale.

TEN YEARS AGO TODAY

Dr. A. H. Tickell has purchased a portion of the Hoffman property on upper Nevada Street and plans to construct a modern home in the very near future. His lot has a 175 foot frontage on Nevada Street.

A. M. Holmes appointed as "acting mayor" of Nevada City to serve for Mayor E. J. N. Ott during his contemplated absence the next few months.

At a meeting in the Elks Lodge called to order by R. J. Bennetts and presided over by R. L. P. Bigelow the question of continuance of the Boy Scout work in this city was considered and discussed. The group was enthusiastically in favor of keeping the organization going and raising the $300 quota.

Superior Judge Landis of Auburn, Regional Executive Curtis, District Attorney Lowell of Auburn, John Fortier, George Calanan and Judge George L. Jones took part in the discussion.

Lay Away For Christmas

Christmas is just around the corner, and we're around you . . . To remind you that it is not too early to think of Christmas now.

Prices are continually going higher and higher. If you buy now you are certain to save money.

You may now have the pick of the house without much cash—just a small deposit will lay your gifts aside.

If you continue to make time-to-time payments, your gifts will be almost fully paid for by the time Christmas rolls around. You can pay the balance next year.

Avoid the last minute rush this Christmas. Shop early and save money. Let us "lay-away" your gifts for you—NOW!

Social Events

Thimble Club Gives Card Party

The Thimble Club of Neighbors of Woodcraft met in Pythian Castle yesterday afternoon with eighteen members present. After a short social time cards were played and dainty refreshments served. Prizes at cards were won by Peggy Flynn, first; Laura Coughlin, second and Martha Dillon, third.

The Thimble Club is preparing to give a public card party November 18 in Pythian Castle.

Birthday Party for Mrs. Betty Held

Mrs. Carl Johnson of Park avenue entertained Tuesday evening in honor of the seventeenth birthday of her nieve, Miss Betty Held. A large birthday cake was the central feature of the attractively arranged table. Miss Held received several nice gifts.

Invited to the happy affair were Miss Leila Shaughnessy, Miss Lois Held, Miss Betty Held, Peter Gianpacli, Billie Held, D. G. Johnson and hostess, Mrs. Carl Johnson.

Mr. and Mrs. Gwin Hosts at Dinner

C. M. Gwin, administrative assistant in the Tahoe National Forest service at Nevada City, and Mrs. Gwinn entertained at a dainty dinner party Tuesday evening. After the dinner the party went in a group to the Evangeline Chapter reception to their grand district deputy Bettey Leiter, in the Masonic hall. Those present for the dinner were Superintendent and Mrs. DeWitt Nelson, of this city and Ranger and Mrs. Frank Meggers of Camptonville.

Former Camptonville Man Host at Dinner

CAMPTONVILLE, Oct. 14. — Al Flagg a native of Indian Hill and former resident(now of San Francisco, who has been spending the past two weeks visiting his old home and renewing old acquaintances, was host Sunday afternoon to a number of his friends at the Hotel Francis where he entertained them with a turkey dinner.

Twenty two guests were seated at the table and enjoyed a fine turkey dinner, prepared in her able manner by Mrs. Rachael Labadie. The table was decorated with flowers, and place cards and favors indicated where each guest was to sit. A toast was given to the men by Mrs. Celine Pew and a like one given to the women by Judge Acton M. Cleveland. During the meal fitting remarks were made by Mr. Flagg as well as several of the guests. Following the meal each guest told of some outstanding event in their lives that they always would remember.

The most honored guest of the day was Mrs. Catherine Pendola, now 87 years of age, who Mr. Flagg had seated by his side. He had always been welcome at the Pendola home when a boy, and he has always cherished those memories in his heart.

Following the dinner a group picture was taken after which the guests moved to the Masonic hall where they held an old time square dance, dancing quardille, Virginia reel, and waltzes, it being the first time in many years that a square dance was held in the local hall. It brought back memories of old times, and was greatly enjoyed. Music was furnished by Misses Dorothy Hays and Harriet Church and A. B. Massa did the calling.

The following were in attendance: Al Flagg, Mr. and Mrs. Samuel F. Price, Mr. and Mrs. William Turner, Mrs. Celine Pew (Nee Celine Fortier), Mr. and Mrs. M. G. Calvin, Mr. and Mrs. Fred B. Hanson, Mr. and Mrs. Dyer (Nee Maud Brown), P. G. Kummer, Edward J. Price, A. H. Behrens, Mrs. Catherine Pendola, Miss Laura Pendola, Miss Lydia O. Groves, Mrs. Olive Groves, A. B. Massa, Judge Acton M. Cleveland and David Lewis.

Personal

Mrs. Helen Smith, who resides in the Polkinghorn home in this city, returned Saturday from several days spent in the bay district.

M. and Mrs. J. H. Quick and son, Richard of Covina are visiting Mrs. Quick's mother, Mrs. Mary Curnow in Nevada City this week.

Mrs. Otto E. Schiffner, Mrs. George Button and Mrs. Etta LosKamp motored to Vallejo Sunday. Mrs. Schiffner returned Monday night, Mrs. LosKamp and her sister Mrs. Button remained in Vallejo for an extended visit with Mrs. Button's daughter, Mrs. George Bobst who resides in Vallejo.

Frank Williams who operates the Von Humlodbt mine near Graniteville is continuing development and mining ore in the tunnel. Assays of ore are taken from time to time to test values.

Mr. and Mrs. Charles Leiter accompanied by Mrs. Mary German and Mrs. William Tice motored to Reno. Saturday and enjoyed attending a session of grand chapter in that city. Mrs. Leiter is a grand deputy matron of the eighth district of California.

C. E. Clark, manager of the Relief Hill mine near North Bloomfield, and Mrs. Clark attended Evangeline Chapter, O. E. S., reception to the district deputy grand matron in Nevada City Tuesday evening.

George Brailey, who purchased the old Cohn property on Grove street and has remodeled and renovated the building into a neat home, has just completed building a large garage and woodshed on the property.

Mr. and Mrs. Charles Hambleton and son, Jimmie, came over from Tonopah, Nevada, where they have been the past three months and are spending some time at their home in this city.

CAMPTONVILLE

CAMPTONVILLE, Oct. 14.—Fred J. Joubert left Sunday for San Francisco to attend the Masonic Grand Lodge which meets there this week.

Mrs. Hazel McDowell left Sunday for Grass Valley after spending several days visiting relatives here.

Chas. Donnellyy came in from True Grit minne Sunday and left for his home at Oakland.

Julius E. Pauly left Sunday for San Francisco to attend the Masonis Grand Lodge representing the local order.

William E. Groves arrived Saturday from Martinez and will spend a few days visiting his mother and aunt.

GOLDEN CENTER MINE

The Miners Foundry at Nevada City has just completed installing the 85 foot all steel headframe at the Scotia shaft of the Golden Center property in Grass Valley. The company is now installing skips in the shaft. It is understood when completed this will be the main working shaft of the Golden Center property, the present shaft being in the center of town and the new or Scotia shaft is to the west of the city limits. Leland Wincapaw is the superintendent in charge of the mine.

Correct Glasses — W. P. Sawyer, M. D. Ott Bldg., Nevada City.

DEPUTY GRAND MATRON HONORED BY O. E. S.

Evangeline Chapter, O. E. S. presented a beautiful program, a banquet and reception Tuesday in honor of Deputy Grand Matron, Betty Leiter.

Mrs. Katherine Celio was chairman of the general committee in charge of the occasion. She was assisted by Helen Berger, Worthy Matron and Joseph Stenger, Worthy Patron.

A beautiful program was presented after which a banquet was enjoyed in the banquet room with James Snell as toastmaster.

The banquet table was most beautifully decorated in a Columbus Day motif. The three boats of Columbus, the "Pinta, the "Nina" and the "Santa Maria" centered the table and with place cards, favors and napkins also in Spanish motif were remindful of the Columbus Day. Oct. 12, the date of the banquet which happily fell on Discovery Day.

During the evening in the lodge hall, Mrs. Leiter was presented with several beautiful gifts. Mr. Leiter, in recognition of his position as the husband of the deputy grand matron, received a fine leather wallet. Mr. Leiter throughout the year had taken a great deal of his time during Mrs. Leiter's on her visits to the various chapters.

AUBURN WILL ENJOY SPORTSMEN'S BARBECUE

Earl Miner, President of The Placer Sportsmen's Association, called a rally of the members and interested sportsmen at a meeting held at the Auburn Firemen's Hall Tuesday evening, October 12. The purpose of this meeting was to discuss the holding of the annual barbeque After a full discussion of the project it was decided to hold the barbeque again this year, as Local and outside interest plainly indicated it was desired.

The Auburn Country Club, two miles east of Auburn on the Grass Valley highway, was selected as the most logical place for the event, as all plans can be carried out regardless of weather conditions. The date was set for October 31.

"Private Property—No Trespassing" signs for sale at the Nugget Office.

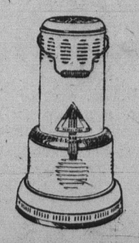
Superfex Heat-Director No. 1035

4 COMFORTS NO STOVE EVER COMBINED BEFORE

The SUPERFEX HEAT-DIRECTOR gives you advantages never before available. With its shutters closed, SUPERFEX circulates heated air, like a warm air furnace. With shutters open, SUPERFEX radiates heat out into the room where you can feel it. In addition, SUPERFEX gives the exclusive advantage of directed heat, thrown downward by the patented adjustable shutters to warm the floor. With this one stove you have: 1. Circulating heat. 2. Radiating heat. 3. Directed heat. 4. The cleanliness, economy and convenience of oil.

Enjoy this modern stove heat in your home, store or office. SUPERFEX is easy to fuel, easy to light, easy to regulate. It will give you at any and all hours a wide range of clean heat thrown in the *direction* you desire. The new SUPERFEX has been especially designed to burn a very wide variety of domestic fuel oils.

Have your dealer give you a SUPERFEX demonstration. Several sizes available, modern in design, finished in porcelain enamel. Ask your dealer about easy buying plans.



For a chilly spot in any room, get a handy portable PERFECTION Heater. Modern beauty, quality finishes. 10 to 12 hours of warm comfort from a gallon of kerosene.
